BEAUTIFUL HAIR AT SMALL COST

Simple Remedy Beautifies the Hair, Cures Dandruff, Stops Falling Hair.

What a pity it is to see so many scople with thin, wispy hair, faded or streaked with gray, and realize that most of these people might have soft, glossy, abundant hair of beautiful color and lustre if they would but use the proper treatment. There is no necessity for gray hair under sixty-five years of age, and there is no excuse for anyone, young or old, having thin, straggling hair, either full of dandruff or heavy and rank smelling with excessive oil.

You can bring back the natural color of your hair in a few days and forever rid yourself of any dandruff and loose hairs, and make your hair grow strong and beautiful by using Wyeth's Sage and Sulphur Hair Remedy. For generations common garden Sage has been used for restoring and preserving the color of the hair; and Sulphur is recognized by Scalp Specialists as and scalp troubles.

or itching scalp, or if your hair river bed is dry. The present supis losing its color or coming out, ply is not half sufficient to fill gist, and notice the improvement in a few days' treatment.

Of This arrangement does not suit the course it takes a lot of persuasion old gentlemen in any particular and to convince papa that he was wrong, the Senator tells Watson things are but he finally consents, when he sees there is no other alternative. senator," is the characteristic reply Other views that will be shown are: of Watson, who knows nothing of "The Promoter," "The Widower," "Jimmie and His Country Uncle," 'The Outskirts of Paris."

The litigation that has for some time foreshadowed the distribution of water on the Humboldt river has finally been precipitated in an injunction suit begun this week in Reno by the combined irrigators, of the Lovelock valley against the Pacific Reclamation company of Wells, to force the latter company to raise the gates of their reservoir there and allow the water to run down the river.

The suit is a most important one, since it involves the right of appropriators on the lower stretches of the river to call a halt on the continued appropriation of the water at the head of the stream. It also will demonstrate whether or not the particular reclamation company have any legal right to the water which they claim and which they are now taking.

One of the allegations of the Lovelock irrigators and which, if borne out by fact, appears sufficient for the granting of an injunction against the Pacific Reclamation company, is that the water now being stored by them is of the most vital importance to the appropriators on the lower portions of the river. This water which requires six weeks to reach the Lovelock valley, is what is necessary and has always been used for the first irrigation, will be missing. Every being excellent for treatment of hair drop of water now running in the river is being appropriated, so that If you are troubled with dandruff below the last diversion dam the get a fifty-cent bottle of Wyeth's the demand for the irrigation of Sage and Sulphur from your drug- land that has been under continuous cultivation for many years past and, the appearance of your hair after in a couple of weeks, at the time the water now being stored should reach here, great damage will result to Lovelock farmers.

Cheney, Hawkins and Price of Reno have been engaged as attorneys for the Lovelock farmers and the complainants comprise practically every farmer in the valley, with the exception of those appropriating from what is known as the Roger's or Marker ditch, Since the ditch enjoys one of the oldest rights in Lovelock, it is presumed that they will soon enter as complainants.

WOMEN WILL PARADE.
